Volvo Excavators 52.4 - 55.8 t 429 hp

EC550E

Volvo Construction Equipment

Welcome to our world

Welcome to a world of industry leading machinery. A world where imagination, hard work and technological innovation will lead the way towards developing a future which is cleaner, smarter, and more connected. A world supported by the enduring values of the Volvo Group. A world of stability, sustainability and innovation. A world which we put our customers at the heart of.

Welcome to the world of Volvo Construction Equipment – we think you're going to like it here.

Working harder, working smarter

For over 180 years Volvo has been a pioneer in the design and manufacture of machines which set the standard for efficiency, performance and uptime. Across our range of excavators, wheel loaders and haulers, our reputation for engineering excellence is unrivalled, which means whatever your operation or application, we can provide a total fleet solution to help you succeed.

Building on our proud history, the Volvo Concept Lab continues to create cutting-edge ideas and innovative concepts, to ensure we offer customers machines which work harder and smarter long into the future.

Solutions for you

Our industry leading machines are just the start of your relationship with Volvo. As your partner, we have developed an extensive range of additional solutions to help you improve uptime, boost productivity and reduce costs.

Designed for your business

Structured across nine blocks, our portfolio of products and services are designed to complement your machine's performance and boost your profitability. Simply put, we offer some of the best guarantees, warranties and technological solutions in the industry today.

There when you need us

Whether you're buying new or used, our global network of dealers and technicians offer around-the-clock support, including machine monitoring and world-class parts availability. It's the basis of everything offered by Volvo Services, so you can be confident we've got you covered right from the start.

BUILDING TOMORROW

Go big

Delivering the type of durability and performance more commonly expected from a 60/65-tonne crawler excavator, the Volvo EC550E truly punches above its weight. Outstanding levels of power and productivity make this machine the perfect partner for mining, mass excavation and large infrastructure projects.

Dig more, lift more

Shorten cycle times in the EC550E which features a powertrain and lifting capacity more commonly found in a 60/65-tonne machine. With impressive engine power and reinforced digging equipment with large pin size, this is an excavator which is big on performance.

The undercarriage for the job

The perfect choice for the toughest applications, the EC550E features a robust undercarriage with the option of a wider lower frame for enhanced stability in applications requiring additional reach.

Less passes, more work

Optimize fleet use by up to 40%. The EC550E is the perfect partner to 30-40t haulers and highway trucks, reducing the number of required passes – dramatically improving cycle times. With the additional support of Volvo Site Simulation, your Volvo dealer can work with you to advise on the optimum fleet configuration and site set-up for your operation.

A weight off your mind

Take control of your productivity with the optional On-Board Weighing – part of the Dig Assist set of apps and powered by the 10" Volvo Co-Pilot display. The intelligent tool provides real-time information on bucket weight ensuring the optimum amount of material is moved with every pass. The system also records total tonnage, per shift or per day, to provide powerful long-term productivity data.

40% HIGHER PRODUCTIVITY

Boost productivity by up to 40% in the Volvo EC550E, available with a range of optimum-sized buckets designed for use in abrasive conditions.

Less cost, more profit

Reduce costs and boost profits in the EC550E. Features including new electro-hydraulic system with Independent Metering Valve Technology, Volvo Attachments and operator training all contribute towards the unrivalled levels of efficiency.

Unique Independent Metering Valve Technology

The latest pioneering innovation from Volvo, the next generation electro-hydraulic system with Independent Metering Valve Technology (IMVT) is the next generation electro-hydraulic system in the industry. IMVT provides intelligent electronic control with more control variable, compared to a conventional mechanically coupled hydraulic system. The result is maximum controllability and efficiency according to the specific application at hand.

Take your efficiency to the next level

While reliable and efficient machines of course play a vital role in reducing costs, enhancing safety and maximizing productivity, it is ultimately the performance of the operator that really makes the difference. We offer a range of training initiatives to help unlock the full capability of the Volvo machines, including EcoOperator Training – an advanced course for experienced operators which focuses on a more profitable and environmentally considerate operation.

The right tool for the job

Take on a variety of tasks with our range of factory-delivered attachments, including quick couplers and buckets. Perfectly matched to your machine, Volvo attachments are designed to create a single solid and reliable unit, delivering faster and more fuel-efficient cycle times. What's more, the machine is prepared with the necessary auxiliary piping to power hydraulic attachments such as breakers, thumbs, shears, grapples and more.

Even more efficiency

Fuel is the industry's number one operational cost and Fuel Efficiency Reports help to identify areas where efficiency improvements can be made, providing clear insights into the fuel performance of a fleet, site or individual machine. If you need further support putting insight into action, your Volvo dealer is on hand to help you develop a plan to deliver long-term efficiency gains.

25% MORE FUEL EFFICIENCY

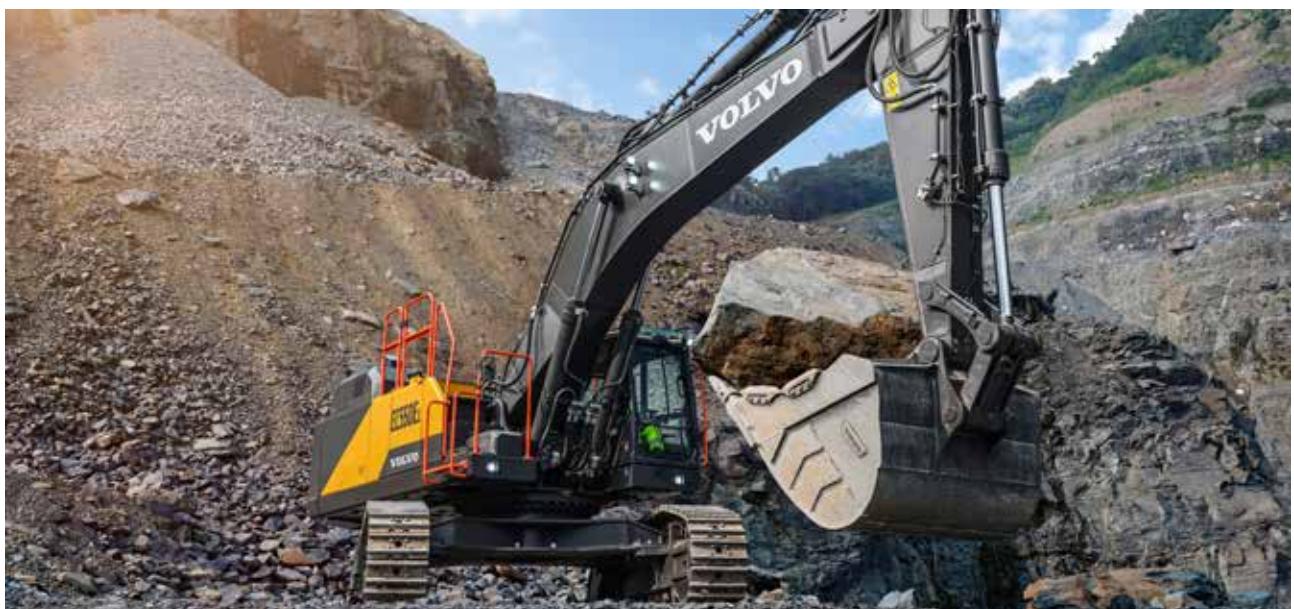

Take fuel efficiency to new levels in the EC550E. The next generation electro-hydraulic system with Independent Metering Valve Technology produces up to a 25% improvement in fuel efficiency. Engine pump optimization, which lowers engine rpm while optimizing power, and optimized hydraulic piping and size routings, further contribute towards the incredible levels of fuel efficiency.

Ultimate control

Welcome to the ultimate in operator control and convenience. The revolutionary new generation electro-hydraulics with Independent Metering Valve Technology enable a range of intelligent functions which take the operator experience to new levels.

Carry with care

The perfect solution for lift and carry operations, creep mode utilizes an independent pump flow during travel to maintain a constant and slower travel speed.

Comfortable travel

For easy operation and reduced operator fatigue, optional Comfort Drive Control gives operators the opportunity to steer the machine using the advanced joystick rollers with index finger grip, instead of using the pedals.

A smoother shift

Boom and arm bouncing reduction technology dramatically reduces machine shock, resulting in a more comfortable and productive operator performance.

ADAPT TO THE JOB

Operators can easily select and adjust a number of functions depending on personal preferences and the task at hand, including Boom/Swing and Boom/Travel priority which enables prioritization of one function over another. Operators can also easily adjust the boom down speed, ideal for precision tasks which require optimum control.

For your comfort and safety

Whether working inside or on the machine, features such as unrivalled visibility and 3-point right-hand side access mean you can be sure that the highest levels of safety have been considered in every design detail of the EC550E.

See it all

Operators benefit from outstanding visibility thanks to rear and side-view cameras. Furthermore, the optional Volvo Smart View uses front, rear and side cameras to provide a real-time, overhead view of the machine, resulting in safer machine rotation while working, especially in confined spaces.

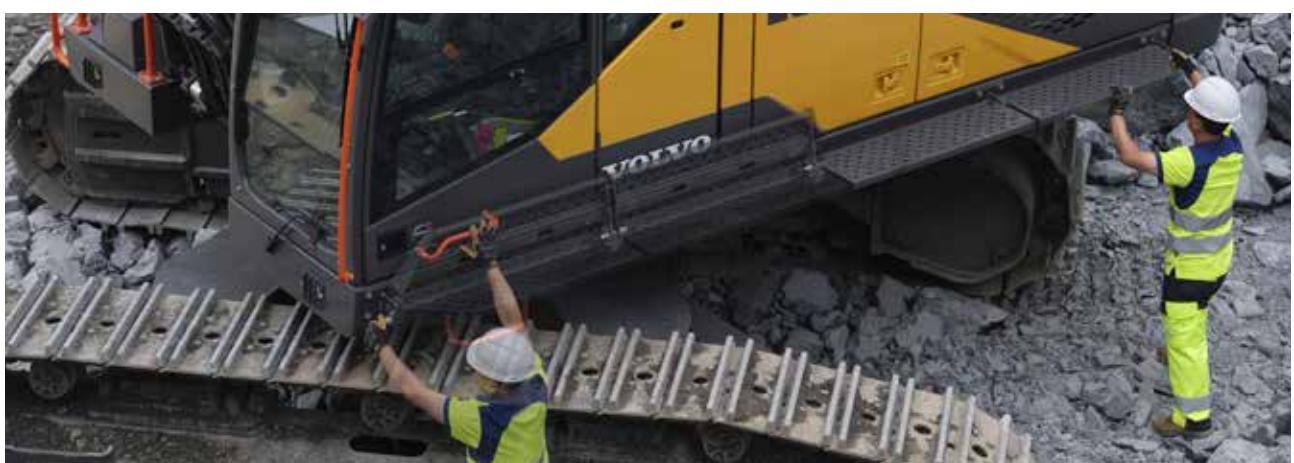

Industry-renowned cab

Step inside the best cab on the market. The ROPS cab exceeds industry standards for this class of machine, and with low noise and low vibration, operators will experience the ultimate in comfort. Already boasting best-in-class visibility, the optional high visibility cab and one-piece front window enhance visibility even more.

Get around safely

Industry renowned features such as bolted anti-slip plates, high visibility guardrails and handrails ensure the highest levels of safety when negotiating the machine. For further convenience, the optional foldable cab entrance step and side walkways fold away to enable easier transportation.

EASY AS 1, 2, 3

Reach the upper structure with confidence thanks to 3-point right-hand side access, helping to carry out maintenance quickly and easily.

Work harder for longer

Reduced maintenance requirements, durable design and outstanding reliability means you can count on the EC550E to deliver optimum results – shift after shift, day after day.

For the toughest tasks

The EC550E is designed to deliver performance which lasts, with an ultra-durable and reinforced undercarriage providing the durability and strength you would expect from a 60/65-tonne excavator. Combine this with a super-strong upper and lower frame, and boom and arm with larger pin size, and this machine is ready to take on the toughest of applications.

Machine monitoring made easy

Maximize machine uptime and reduce repair costs with the CareTrack telematic system. Choose to keep track of your machine yourself or let us take care of it with ActiveCare. Our Volvo Uptime Center will provide 24/7 machine monitoring, supplying weekly reports and notifying you should preventive maintenance action be required.

Keeping you moving

Maintain productivity and machine uptime with our range of widely available, tested and approved Genuine Volvo Parts – all backed by Volvo warranty. Your Volvo dealer can help you stay on track, offering flexible maintenance and repair options, as well as planned servicing, to extend the life of your excavator.

UPTIME YOU CAN COUNT ON

Hydraulic pilot lines have been removed in the EC550E, reducing the number of couplings required, for increased machine reliability. Electric connectors which exceed Ingress Protection 6K9K water-proofed standards also contribute to long component life. What's more, grouped filters accessible from the ground level make servicing quick and easy.

Move more for less

25% better fuel efficiency

- Electro-hydraulic system with Independent Metering Valve Technology
- Engine pump optimization
- Optimized hydraulic piping and size routing

Ultimate control

- Boom/Swing and Boom/Travel priority
- Adjustable boom down speed
- Boom and arm bouncing reduction
- Creep mode: carry with care
- Comfort Drive Control: joystick steering (Option)

Work harder for longer

- Ultra-durable and reinforced undercarriage, upper and lower frame
- Reinforced digging equipment, including larger pin size
- Electric connectors exceeding Ingress Protection 6K9K water-proofed standards

Quick and easy servicing

- 3-point right-hand side access to the upper structure
- Removed hydraulic pilot lines: reduced need for oil/couplings
- Grouped filters, accessed from ground-level or side walkway

Volvo Services: boost your profits

- On-Board Weighing, powered by Volvo Co-Pilot (Dig Assist)
- Volvo Site Simulation
- Fuel Efficiency Report
- Operator Training, including EcoOperator
- ActiveCare: 24/7 machine monitoring

40% higher productivity

- Range of optimum-sized buckets designed for use in abrasive conditions
- Superior swing torque and tractive force
- Lifting capacity commonly found in a 60/65-tonne machine
- Perfect match to 30-40t haulers and highway trucks

Get around safely

- ROPS cab: spacious, ergonomic and low-noise
- Rear and side cameras, Volvo Smart View
- High-visibility cab, One-piece front window (Options)
- Bolted anti-slip plates
- Foldable walkways (Option)
- High visibility handrails/guardrails

Volvo EC550E in detail

Engine

The Volvo diesel engine uses Volvo Advanced Combustion Technology (V-ACT) to deliver lower emissions, superior performance and fuel efficiency. The engine uses precise, highpressure fuel injectors, turbo charger and intercooler, and electronic engine controls to optimize machine performance.
 Air Filter: 3-stage and precleaner
 Automatic Idling System: Reduces engine speed to idle when the levers and pedals are not activated resulting in less fuel consumption and low cab noise levels.
 Low-Emission Engine.

Engine	Volvo	D13E
Max power at	r/min	1 600
Net, ISO 9249/SAE J1349	kW	319
	hp	428
Gross, ISO 14396/SAE J1995	kW	320
	hp	429
Max torque	Nm	2 071
at engine speed	r/min	1 350
No. of cylinders		6
Displacement	l	12.8
Bore	mm	131
Stroke	mm	158

Electrical System

High-capacity electrical system that is well protected. Waterproof double-lock harness plugs are used to secure corrosion-free connections. The main relays and solenoid valves are shielded to prevent damage. The master switch is standard.

Voltage	V	24
Batteries	V	2 x 12
Battery capacity	Ah	200
Alternator	V/A	28/80

Undercarriage

The undercarriage has a robust X-shaped frame. Greased and sealed track chains are standard.

EC550EL wide retractable undercarriage

Track shoe		51
Link pitch	mm	229
Shoe width, triple grouser	mm	600 / 750 / 900
Shoe width, double grouser	mm	600
Bottom rollers		18
Top rollers		6

EC550EL fixed undercarriage

Track shoe		50
Link pitch	mm	229
Shoe width, triple grouser	mm	600 / 750 / 900
Shoe width, double grouser	mm	600
Bottom rollers		18
Top rollers		4

Cab

The operator's cab has easy access via a wide door opening. The cab is supported on hydraulic dampening mounts to reduce shock and vibration levels. These along with sound absorbing lining provide low noise levels. The cab has excellent all-round visibility. The front windshield can easily slide up into the ceiling, and the lower front glass can be removed and stored in the side door.

Integrated air-conditioning and heating system: the pressurized and filtered cab air is supplied by an automatically-controlled fan. The air is distributed throughout the cab from 14 vents.

Ergonomic operator's seat: the adjustable seat and joystick console move independently to accommodate the operator. The seat has nine different adjustments plus a seat belt for the operator's comfort and safety. Refrigerant of the type R134a is used when this machine is equipped with air conditioning. Contains fluorinated greenhouse gas R134a, Global Warming Potential 1.430 t CO₂-eq.

Sound Level

Sound level in cab according to ISO 6396

L _{pA}	dB	71

D: 2 100 kg/m³

C: 1 800 kg/m³

B: 1 500 kg/m³

A: 1 200 kg/m³

X : Not recommended

PASS MATCHES

For maximum production at lowest operating cost per ton Volvo recommends that loading and hauling machines be matched to achieve optimal performance.

For typical applications EC550E can fill 35-40 ton payload Haulers with 4-6 buckets.

Configuration*

6,5m ME boom, 2,55m ME arm, 10600kg CWT

Payload (metric ton)					25	29	34.5	39	41	55
EC480	6.5 / 2.55	1.60	3.10	100%	5	6	7	8	8	11

Notes: 1. Machine in "Fine Mode-F" (Power Boost) for lifting capacities. 2. The above loads are in compliance with SAE J1097 and ISO 10567 Hydraulic Excavator Lifting Capacity Standards. 3. Rated loads do not exceed 87% of hydraulic lifting capacity or 75% of tipping load. 4. Rated loads marked with an asterisk (*) are limited by hydraulic capacity rather than tipping load.

Specifications

LIFTING CAPACITY EC550EL Fixed undercarriage

Lifting capacity at the arm end without bucket.

For lifting capacity including bucket, simply subtract actual weight of the direct fit bucket or the bucket with quick coupler from the following values.

	Lifting hook related to ground level	1.5 m		3.0 m		4.5 m		6.0 m		7.5 m		9.0 m		10.5 m		Max. reach

Specifications

LIFTING CAPACITY EC550EL Fixed undercarriage

Lifting capacity at the arm end without bucket.

For lifting capacity including bucket, simply subtract actual weight of the direct fit bucket or the bucket with quick coupler from the following values.

	Lifting hook related to ground level	1.5 m		3.0 m		4.5 m		6.0 m		7.5 m		9.0 m		10.5 m		Max. reach						
		Along UC	Across UC	m

Notes: 1. Machine in "Fine Mode-F" (Power Boost) for lifting capacities. 2. The above loads are in compliance with SAE J1097 and ISO 10567 Hydraulic Excavator Lifting Capacity Standards. 3. Rated loads do not exceed 87% of hydraulic lifting capacity or 75% of tipping load. 4. Rated loads marked with an asterisk (*) are limited by hydraulic capacity rather than tipping load.

Equipment

STANDARD EQUIPMENT

Engine

Turbocharged, 4 stroke diesel engine with water cooling, direct injection and charged air cooler

Air filter with indicator

Air intake heater

Cyclone pre-cleaner

Fuel filter and combined water separator

Fuel filler pump: 50 l/min, with automatic shut-off

Auto engine shutdown

Delayed engine Shutdown

Alternator, 80 A

Electric / Electronic control system

Advanced mode control system

Self-diagnostic system

Machine status indication

Engine speed sensing power control

Automatic idling system

One-touch power boost

Safety stop/start function

Adjustable LCD color monitor

Master electrical disconnect switch

Engine restart prevention circuit

High-capacity LED lights:

Frame-mounted 2

Boom-mounted 2

Extra work lights, LED :

- Cab-mounted 3

- Boom-mounted 2

- Counterweight-mounted 1

Travel alarm

Flashing beacon, LED

Batteries, 2 x 12 V / 200 Ah

Start motor, 24 V / 7 kW

Frame

3-point right-hand side access

Tool storage area

Service walk way

Punched metal anti-slip plates

Undercover, heavy-duty

Undercarriage

Undercover, heavy-duty

Hydraulic track adjusters

Greased and sealed track link

Track Guard

Hydraulic system

New electro-hydraulic system with IMVT

2-pump flow bucket circuit

Swing anti-rebound valves

Boom and arm holding valves

Multi-stage filtering system

Cylinder cushioning

Cylinder contamination seals

Automatic two-speed travel motors

Hydraulic oil, ISO VG 68

Automatic hydraulic oil warm-up

STANDARD EQUIPMENT

Cab and interior

ROPS (ISO12117-2) certified cab

Silicon oil and rubber mounts with spring

Travel pedals and hand levers

Adjustable operator seat and joystick control console

Control joysticks with 4 switches each

Heater & air-conditioner, automatic

Flexible antenna

Radio with MP3 & USB Jack with bluetooth

Hydraulic safety lock lever

Cab, all-weather sound suppressed, includes:

- Cup holders

- Door locks

- Tinted glass

- Floor mat

- Horn

- Large storage area

- Pull-up type front window

- Removable lower windshield

- Seat belt

- Safety glass

- Sun screens, front, roof, rear

- Windshield wiper with intermittent feature

- Rear view camera

- Master key

Track shoes

750 mm with triple grousers

Digging equipment

Boom: 6.5 m ME

Arm: 2.55 m HD

Manual centralized lubrication

Service

Tool kit, daily maintenance

Equipment

OPTIONAL EQUIPMENT

Engine

Oil bath pre-cleaner

Diesel coolant heater, 10 kW

Water separator with heater

Reversible fan drive

Fuel tank-fast fuel fill preparation

Electric

Anti-theft system

Green light beacon

Jump start connector, NATO

Dig Assist : 2D, In-Field Design and 3D

On-Board Weighing

Volvo Smart View

Volvo Active Control

Frame

Hydraulic removable counterweight

Service walk way, foldable

Cab entrance, foldable

Full height, foldable handrail and guard rail

Side impact protection

Undercarriage

Full track guard

Mechanically retractable width track gauge

Hydraulic system

Hammer & shear:

- Work tool management system

- (up to 32 programmable memories)

- Hammer & shear, 1 and 2 pump flow

- variable flow and pressure pre-setting

- Additional return filter

Slope & rotator

Grapple

Oil leak (drain) line

Hose rupture valve: boom, Arm

Overload warning device

Quick coupler piping

Boom float function

OPTIONAL EQUIPMENT

Cab and interior

Fabric seat with heater, air suspension and 3P belt

Deluxe seat with multiple adjusting arm rest

Joystick pattern change

Comfort Driving Control

Creep travel speed

Opening top hatch

Falling object guard (FOG) :

- Frame-mounted

- Cab-mounted

Cab-mounted falling object protective structure (FOPS)

Smoker kit (ashtray and lighter)

Safety net for front window

Safety net for lower front window

Front Rain shield

Lower wiper with intermittent control

Side view camera

Anti-vandalism kit

One piece front window

High visibility cab

Track shoes

Track shoes 600/750/900 mm with triple grousers

Track shoes 600 mm with double grousers

Digging equipment

Boom: 7.0 m HD

Arm: 2.55 m, 3.0m, 3.35m, 3.9 m

Linkage with lifting eye

Service

Automatic lubrication system

Tool kit, full scale

Caretack

SELECTION OF VOLVO OPTIONAL EQUIPMENT

Protection package

Oil bath pre-cleaner

Reversible cooling fan

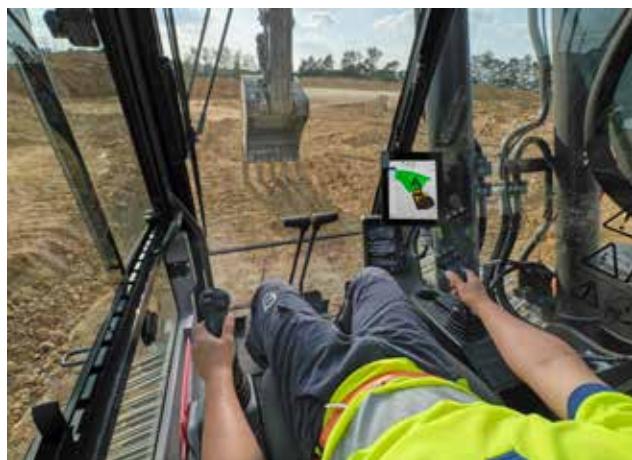

Foldable walkway

Fast fuel filling preparation

Dig Assist apps, powered by Volvo Co-Pilot
